

DAY 3

Read Genesis 1:27

Ask an adult if you can borrow a cell phone and snap a selfie. Go ahead and strike a silly pose.

Now take a look at that picture. It's an image of you. A photo. It's not really you. That image can't walk and talk and breathe (though it does look exactly like you!). And it does show us quite a bit about what you are like, including a little window into your personality.

In the same way a selfie reflects an image of the person in the picture, you are made in the image of God!

You aren't God of course, but of all the wonderful things God made, people—you and me—are most like Him. We can think and feel and laugh and play and love others. We can read and draw and create.

Grab a piece of paper and whatever art supplies you have on hand. Create anything you'd like; the sky is the limit. Somewhere on the page write this week's bottom line: God created you, so you can be creative.

DAY 4

Read Ephesians 2:10

What's your favorite animal? Write it in the space below:

.....
What do you know about your favorite animal? What kind of habitat or climate does it live in? What does it eat? Ask an adult to help you do a little research to answer these questions.

Did you know that of all the amazingly creatures God made, you to stand out above the rest? And while it might be cool to shoot water from your trunk like an elephant or push through the dirt like an earthworm, you are more important to God than any animal, even your favorite one.

Why? Because God created and made a way for us to have a relationship with Him, forever! When we put our trust in Jesus, we become a part of God's family. And once we understand that purpose, we can begin to see all the amazing plans God has for each one of us. From eyes that see, to ears that hear, to feet that run, to brains that solve problems, you are one big amazing body of wonder.

Write down three unique parts of you. As you pray today, thank God for those unique "body parts" and ask Him to help you use them creatively to do good in the world around you.
